

## Stephen Anthony

Stephen Anthony has been the Associate District Chief for USGS water programs in Hawaii and the Pacific since 1999. His primary responsibility at the USGS is to develop and coordinate water-resource studies with various Federal, State, foreign, and local agencies and stakeholder groups. He has authored over 15 scientific papers on subjects such as ground-water hydrology and water quality. His research interests are currently focused on understanding the relations between water quality and land use in tropical island settings. He received a BS in Geoscience from Hobart College in Geneva, New York in 1983 and a MS in Geology and Geophysics from the University of Hawaii at Manoa in 1987.

### Contact Information

Address: U.S. Geological Survey, Water Resources  
677 Ala Moana Blvd., Suite 415  
Honolulu, HI 96813

Phone: 808-587-2406 (office)  
808-384-9946 (cell)  
808-587-2401 (fax)

Email: santhony@usgs.gov
