

## Stephen Gingerich

Stephen Gingerich has been a research hydrologist for the U.S. Geological Survey since 1995. He has authored over 25 scientific papers on subjects such as ground-water modeling and island hydrology. He received a BS in Geosciences from the Pennsylvania State University in 1986, a MS and a PhD in Hydrology from the University of Hawaii at Manoa in 1992 and 1995. In addition, he has worked as a laboratory technician and a ground-water consultant. He started working for the USGS in 1990 as a student. He has worked on hydrologic studies in Hawaii, the Marshall Islands, American Samoa, the Mariana Islands, and Diego Garcia in the Indian Ocean.
